These, and other more serious questions regarding modern day air travel are just some of the questions addressed in a recent book from Laurence King Publishing titled 'Airline: Style at 30,000 Feet', written by designer and author Keith Lovegrove. Published in August 2013 as a second, 'mini' edition of an older title dating back to 2000, the book sets out to 'illustrate and analyse the successful - and occasionally not so successful - results of the airlines' relentless quest ...

Airline: Style at 30,000 Feet | Yatzter

Airline: Style at 30,000 feet (published by Laurence King) is a fascinating run through every aspect of airline style - from company liveries and the interior designs of planes to advertising, haute couture, and airborne haute cuisine. And from the "Nostalgia" file comes this book by Keith Lovegrove.

Airline: Style at 30,000 feet - Cheapflights

Airline Style at 30,000 Feet is a compendium that highlights the different eras in aviation, the accompanying change in styles and the overarching views of society. From the functional wardrobe and advisory notices of "putting cotton wool in ears" to reduce noise in the 1930s to the hot pants and leather boots of air hostesses in the 1970s, the airline industry's trends have been on a par with the changing face of society and technology.
